WESTMOUNT SECONDARY SCHOOL Home of the Wildcats

Michael Trink
Math/Computer Science Teacher
Westmount Secondary School
Hamilton-Wentworth District School Board

November 20, 2019

To Whom It May Concern:

I have had the opportunity to teach Aadar Gupta over these past years in Computer Science and supervise him on the Cricket Team and Coding Club. Through his academic performance, his outstanding personal characteristics, and his participation in extra-curriculars, Aadar has been a tremendous benefit to our school and learning community.

Aadar has demonstrated exceptional academic abilities in the classroom by earning marks consistently amongst the top of the class. He is intensely curious and willing to take risks when learning. Despite achieving impressive grades, he is not grade motivated, he is learning and understanding motivated. He is always looking for ways to make things better, go beyond expectations, and to relate his learning to the real-world.

Westmount Secondary School is a self-directed and self-paced school and Aadar has flourished in this environment. He has well-developed executive functioning capabilities, which allows him to develop effective plans to manage his time and his learning. The self-directed nature of our program has allowed Aadar to select project and activities that have allowed him to develop exceptional team-work skills and an ability to collaborate effectively.

He is conscientious and giving of his time and expertise which he demonstrated through his extra curricular involvement and volunteer work. He is a natural leader, demonstrated through his headship in the Coding Club, mentoring on the Cricket Team and experience teaching children to code. He consistently finds ways to inspire those around him to excel.

In conclusion, I would highly recommend Aadar. His performance in my class and in others demonstrates his skill, commitment, and leadership ability. If you should need any additional information you can feel free to contact me at (905) 385-5395 x5771 or by email at mtrink@hwdsb.on.ca anytime.

Sincerely,

Michael Trink
