Aadar Gupta, Letter of Reference

Aadar Gupta is one of the most talented students I have had the pleasure of teaching. He is an extremely intelligent and creative student who is able to develop unique ideas for projects and translate them into excellent productions. His academic and technical abilities, maturity, organizational skills, and ability to manage people and his time are unrivalled. Aadar has continuously finished in the top 5% academically during his time at Westmount. His high marks are testament to his creativity, attention to detail, and his organizational skills. His mark in Grade 12 Communications Technology (TGJ4M1) was 100%.

In addition to his academic work, Aadar has demonstrated his leadership by supporting the Westmount school community. He founded and is President of the Westmount Coding Club, allowing him to put two of his 2 favourite passions together: Coding and People. As Captain of the school's Cricket Team, he is the leader and organizer of this highly successful group. And as a Vice-President of DECA, the student Business Leadership group, he mentored younger members and helped manage this large, multi-grade team.

Aadar is an excellent student who has strongly demonstrated his talents and leadership abilities. I highly recommend him for scholarship consideration or entry in a specialty program – he is one of the best and brightest!

Please do not hesitate to contact me at Westmount Secondary School at (905) 385-5395 or at jtimofej@hwdsb.on.ca.

Sincerely,

J. Timofejew
